EXPERIENCE

Quality Assurance and Project Coordination Sept 2021 - Nov 2021 (3 months)
Ideoholics *Noida(Remote)*

- Spearheaded the development and implementation of a robust quality assurance framework, enabling efficient testing of new features and seamless integration, leading to a 35% reduction in post-release defects and a 25% improvement in overall product stability.
- Devised thorough black-box testing of web and mobile web applications, resulting in a remarkable 40% decrease in critical bugs and a notable 20% increase in customer satisfaction ratings.

Full-Stack Developer June 2020 - April 2021(9 months)
Edify Accelerators *Banglore(Remote)*

- Collaborated on designing and developing of the chat-bot, the creation of its architecture, UI/UX, and back-end functionality . This approach led to a seamlessly interactive chat-bot experience, garnering a remarkable 30% increase in user engagement after the deployment of the chat-bot.
- Collaborating with cross-functional teams:Pushing the hard changes while every member being ready on the back-end to handle deployment issues .The successful teamwork achieved an impressive a notable 20% reduction in integration issues.

PROJECTS

A luxury Clothing Website : (Live Link)

- Developed a dynamic luxury clothing website using React, showcasing a modern and opulent collection of high-end fashion. Implemented responsive UI components, seamless user navigation, and integrated secure payment gateways for an exceptional shopping experience

Automated Attendance System : (Source Code)

- It utilizes computer vision and machine learning techniques to automate the process of taking attendance. This system leverages the Open-CV library and the face-recognition library to detect and recognize faces in real-time. The main goal of this project is to eliminate the need for manual attendance .

Portfolio Website :(Live Link)

- Designed and developed a sleek and responsive portfolio website to showcase my projects, skills, and accomplishments. Implemented modern web technologies like HTML5, CSS3, and JavaScript to create an engaging user experience.
